1 Introduction

Myer Pty Ltd have a dedicated EDI team who are available to provide consultation and advice to Suppliers to support our strategy and the EDI – Electronic Data Interchange standards at the core of our Supply Chain and Electronic Trading platforms.

The team works with Suppliers to ensure compliance with the EDI technical and physical trading requirements.

The Myer EDI team audits a supplier's ability to meet the EDI requirements for Myer.

This includes technical advice on the options available and the testing and accreditation of a Suppliers selected system or solution.

Also included in this document is a listing of Network Providers, Solution Providers and 3rd Party Scan Pack providers that Suppliers could select from. Suppliers are NOT obliged to select from this list but it is provided as a starting point for Suppliers to consider from recognised solution providers with a track record of working to the Myer EDI standards.

3 GS1 Australia

GS1 Australia was previously known as EAN Australia and is the company that allocates the GS1 Company prefix to Suppliers to enable the Suppliers to supply to Myer.

GS1 General Specifications contain terminology updates that came about as a result of the GS1 name change. As an example an EAN number, as we know it, can now be referred to as a GTIN13.

GS1 Australia can assist with numbering, bar coding and associated industry standards.

It is mandatory for all Myer local Suppliers to be a member of GS1 Australia.

GS1 Australia can be contacted on:

- Phone: 1300 BARCODE (1300 227 263)
- Email: gs1au@gs1au.org
- Website: www.gs1au.org

5 Solution Providers

To enable Suppliers to comply with the Myer EDI Electronic trading requirements, several vendors have been identified with hardware / software solutions that provide the necessary components to meet these requirements.

Our endorsement

The Myer EDI team have tested solutions from each of the providers listed and verified that the output of these solutions meets our requirements.

Each Supplier needs to determine in conjunction with these (or other) solution providers which components are required to meet their EDI trading requirements and the costs involved.

Please note that Myer Pty Ltd. do not have any direct arrangements with any of the companies and will not participate in any of the negotiations between the Supplier and solution provider.

- The solutions are configurable
- The components required by a particular supplier will be dependent on what is already in-place
- Final cost to suppliers will depend on components required and the quality of hardware chosen

6 3rd Party Scan Pack Provider alternatives

There is an alternative to installing EDI and purchasing the scan pack equipment necessary to carry out the EDI – Electronic Trading scan packing process, that is to deliver merchandise using a specialist 3rd Party Logistics Provider (3PL).

These companies have operational scan pack equipment installed which meets the Myer EDI standards and they are also capable of receiving EDI. This can be either directly on behalf of the Supplier, or by having the EDI order transmitted to the Supplier forwarded electronically.

It is therefore possible to set up and deliver to the EDI requirements without incurring capital expenditure. These companies will charge Suppliers a negotiated rate per unit of merchandise, depending on the services the Supplier requests.

For example:

- They can receive EDI orders
- Have merchandise delivered to them on behalf of suppliers
- Produce the appropriate price tickets
- Attach the ticket to the merchandise
- Hang it on the correct hangers (if required)
- Sort by store
- Scan product into Bags or Cartons
- Attach the SSCC labels
- Send the Advance Ship Note (ASN)

In summary the 3rd party Providers can complete the whole EDI process on your behalf.

If required, most of these companies can arrange a range of additional services.

Including:

- Garment pressing
- Quality assurance
- Re-labelling & re-ticketing
- Permanent warehousing
- Bonded warehousing
- Transport of merchandised

Details of the companies that already meet the requirements of Myer EDI process are set out below.

Please note that Myer Pty Ltd. do not have any direct arrangements with any of the companies and will not participate in any of the negotiations between the Supplier and solution provider.
